

**Safe. Simple. Refillable.
Remarkable!**

KIMTECH® Prep

The WETTASK®

Refillable Wet Wiping
System

Disinfectants such as bleach maintain effective concentration longer when used with WETTASK Wipes vs. cotton rags.

The WETTASK® Refillable Wet Wiping System is the ideal alternative to using a spray or a combination of rag and chemical bucket. It combines all steps into one, making it easy to use and incredibly versatile — it works well with bleach, disinfectants, sanitizers and multi-purpose cleaners. The WETTASK Refillable Wet Wiping System is enclosed, eliminating cross-contamination and reducing exposure to chemicals, vapors or splashes. It's an ideal choice for wiping and surface prep tasks.

Typical settings

- Laboratories
- Hospitals
- Schools
- EMS/Fire Departments
- High-tech and medical device manufacturing
- Pharmaceutical industries
- Industrial manufacturing

Wiping

The WETTASK®
Refillable Wet
Wiping System

Wiping

- **WETTASK® DSx (06211)** For use with bleach, quaternary and phenolic disinfectants and sanitizers. With cotton rags, bleach loses its effectiveness over time. (See front side.)
- **WETTASK® MPx (06231)** Multipurpose wipers for use with water-based cleaners such as glass cleaners, degreasers or hard surface cleaners.
- **WETTASK® Wiping Cloths (06001, 06006)** Suitable for cleanups that require a heavy-duty wiper. Can be used with water-based cleaners and degreasers.
- **WETTASK® Sxx, Class 1,000-10,000 (06261)** For use in controlled environments where lint and extractables are critical. Use with any solution such as isopropyl alcohol.
- **Dispensers (09365 — 1.2 gallon; 09361— 3.5 gallon)** WETTASK® Dispenser Bucket — High-density polyethylene with patented dispensing port. Includes NFPA label promoting compliance with OSHA Hazard Communication Labeling Standard.
