KIMTECH PURE\* M3 Face Masks from Kimberly-Clark Professional are ideal for use in Cleanroom environments. Two versions of the mask are available: a pleat-style mask with knitted earloops and a pleat-style mask with soft ties. The masks' low-linting apertured polyethylene film outer layer provides protection from contamination, and a BICOSOF\* fabric inner-facing provides comfort. These masks provide excellent bacterial and particle filtration, along with good breathability. For more information, visit [www.kcprofessional.com](http://www.kcprofessional.com).
