

Cross-Reference Guide

Eye Protection

KIMBERLY-CLARK PROFESSIONAL* announces the transition of its KLEENGUARD* Brand Eye Protection to the JACKSON SAFETY* Brand Eye Protection. JACKSON SAFETY* Eyewear is available for different work environments and a variety of tasks. Designed with quality materials and style in mind, the JACKSON SAFETY* Brand offers the same unparalleled eye protection our customers have come to expect with KLEENGUARD*, but now with a broader portfolio of eyewear products to choose from.

The brand transition affects our KLEENGUARD* V10, V20, V30, V40 and V50 Eyewear. To aid our customers with this transition, we have created a quick reference guide to help you choose the JACKSON SAFETY* Brand equivalent that best meets your needs.
