STAINLESS STEEL SCOTTFOLD® M DISPENSER

24-gauge brushed stainless steel cover with folded edges. The back and throat are made of molded plastic with a 24-gauge brushed stainless steel cover that is riveted onto the plastic housing. View windows located on both sides of the dispenser. This dispenser features a key-activated spring lock or push button operation and a hinged front cover.

Suggested Mounting Height of 44"

NOTE: Unless otherwise noted, suggested mounting height is the distance from the floor to the bottom of the dispenser.
