## HYGIENIC BATH TISSUE DISPENSER

Dispenser is made of smoked transparent high-impact plastic. No-touch dispensing is designed to reduce the risk of cross-contamination because users touch only the product they use. Holds up to 3 clips of interfolded product. View windows are located on both sides of dispenser. Features key-activated spring lock or push-button operation and a hinged front cover. Dispenser is shipped one per case.

***Suggested Mounting Height: 43" (6" above grab bar in handicapped stall)***

*NOTE: Unless otherwise noted, suggested mounting height is the distance from the floor to the bottom of the dispenser.*
