

Does your  
disinfectant  
in here...

...make it here?

**Find out by downloading our educational bulletin.**

KIMTECH PREP\* Wipers for Bleach, Disinfectants and Sanitizers are specifically designed to be compatible with quaternary amine and bleach disinfectant solutions. Cotton rags aren't. That's why, compared to cotton rags, KIMTECH PREP\* Wipers can help optimize your infection control practices by releasing disinfectants at intended concentration levels. And the enclosed WETASK® System helps avoid contamination of wipers and cleaning solution by eliminating redipping, while also reducing exposure to chemical vapors or splashes.

To learn more, download your free educational bulletin on Optimum Infection Control Practice at [www.kimtech.com/wettaskknowledge1](http://www.kimtech.com/wettaskknowledge1) or call 1-800-851-7538.
