

**Helping You Meet the Highest
Pharmacy Cleanroom Standards**

One Single Source
for Your Pharmacy Cleanroom

Sterile standards are so critical in the hospital environment that USP Chapter <797>[†] Pharmaceutical Compounding Sterile Preparations now requires health system pharmacists to establish Class 100 (ISO Class 5) cleanrooms for sterile pharmacy preparation.

But there's an even more important reason to maintain a compliant cleanroom: your patients. Their health depends on your high quality cleanroom standards. That's why you should partner with KIMBERLY-CLARK PROFESSIONAL.

We can help you meet both federal and patient requirements with our complete line of cleanroom products: KIMTECH® Wipers, SAFESKIN® Gloves and KIMBERLY-CLARK PROFESSIONAL* Facial Protection.
