

# Lodging hot spots

These areas require hygienic solutions to help stop the spread of germs in your workplace.

- Targeting “hot spots” with hand and surface hygiene is a key step toward helping reduce the spread of germs.
- Objects touched by lots of people throughout the day should be cleaned and disinfected frequently to help break the chain of germ transmission:

- Doorknobs
- Elevator buttons
- Gym equipment
- Sink fixtures
- Dining areas
- Countertops
- Remote controls

To learn additional best practices, visit these sites: [hand hygiene](#) and [surface disinfecting](#).
