

Walsall Healthcare

NHS Trust

Situation

- Acute Trust with 500+ beds.
- Requirement to revisit current dispensers and their effectiveness when reviewing IPC measures.
- Old hand towel dispensers utilising manual finger turns which encouraged harbouring of germs.
- High level of hygiene maintenance required due to style of the old toilet roll dispensers throughout the Trust.

Result

Projected average annual paper spend saving across the trust of

£38,886k

And by participating in The RightCycle™ Programme, they successfully recycled 2,216 old dispensers, diverting 3,175kg of plastic waste from landfill.
