## Industrial hot spots

These areas require hygienic solutions to help stop the spread of germs in your workplace.

- Targeting "hot spots" with hand and surface hygiene, is a key step toward helping reduce the spread of germs.
- Objects touched by lots of people throughout the day should be cleaned and disinfected frequently to help break the chain of germ transmission:
  - Doorknobs
  - Vehicles
  - Circuit boards
  - Tools

- Sink fixtures
- Countertops
- Tables
