

Controlled dispensing systems provide **sustained cost, waste and time savings.**

Take [control]

Empower your washroom operations with controlled dispensing

By choosing your consumable and dispenser together as a controlled system you gain complete control to deliver exceptional efficiency and cost savings in your washroom.

Controlled dispensing delivers just the right amount of hand towel, soap or toilet tissue – removing waste in your washrooms.

Rolled hand towel and centrefeed toilet tissue for more efficient single-sheet dispensing.

High capacity systems designed to reduce refill events and run-outs.

Reliable, intuitive and easy to use systems for less servicing time.

Look beyond just the cost per case of your washroom essentials. Choose your consumable and dispenser together as a controlled system - giving you complete control to deliver exceptional efficiency in your washroom.
