WHICH COLOUR?

Colour-coded (Red/Blue/Green/Yellow)

Choose a colour-coded cloth to identify different wiping tasks in segregated cleaning.

Blue

Choose blue for food hygiene compliance, or for oil or water saturation to be visible.

White

Choose white to see that dirt has transferred from surface to sheet, or when dye-free is needed for use with chemicals.

OUR UNIQUE TECHNOLOGY

Using our unique Hydroknit™ Material, Wypall® cloths are manufactured by entangling pulp and polypropylene together using high pressure water jets. The result is a highly absorbent cloth that is strong and durable when wet, contains no adhesives or binders, is resistant to most solvents, and can be used again and again.

**POWER
CLEAN**

*ELIMINATE PRODUCT WASTE AND REDUCE
TIME AND EFFORT ON THE PRODUCTION LINE*

Only **WypAll® PowerClean** enhances productivity with the right product for any heavy-duty or specialized production line task to allow you to effectively perform with **minimum time, effort and product waste.**
